Artificial Light (MCA 87-6-401) - It is unlawful for anyone to take or attempt to take any game bird with the aid of projected artificial light. Use of rifle scopes that project an artificial light to illuminate the target or project infrared light visible only with specialized optics to illuminate the target are unlawful for the taking of game birds.

- It is unlawful for anyone to hunt or attempt to hunt any game animal or game bird by the aid of or with the use of any bait, salt lick, trap, snare, or set gun.
- Baiting means the placing, exposing, depositing, distributing, or scattering of food sources or salt so as to constitute a lure or attraction.

Check Stations (MCA 87-6-218) - All hunters are required by law to stop as directed at all designated check stations on their way to and from hunting areas, even if they have no game to be checked.

Evidence of Sex for Pheasants and Turkey (MCA 87-6-406, CR)

It is unlawful to possess or transport within the state any pheasant or any turkey taken during the spring (male) season unless one leg and foot are left naturally attached for evidence of sex. The leg and foot shall remain attached at all times while being transported from the place where taken until it has arrived at the permanent residence of the possessor.

When transporting any species for which an electronic tag is issued, the individual transporting the harvested animal's carcass must retain the confirmation number. The confirmation number must be presented to a department employee upon request MCA 87-6-201.

Hunter Orange - Shooting another hunter while swinging the gun on an upland bird is the leading cause of hunting-related accidents in Montana. Although not required, it is strongly recommended that all bird hunters wear at least a hunter orange hat or cap to reduce the chance of an accident.

Hunting Hours (CR) - Authorized hunting hours for the taking of upland game birds begin one-half hour before sunrise and end one-half hour after sunset each day of the hunting season. See official sunrise-sunset tables in these regulations.

Indian Reservations (CR) - The Fish and Wildlife Commission has, by rule, closed all lands within the exterior boundaries of Montana's Indian Reservations to the hunting of upland game birds with the use of state licenses unless provided for in a cooperative agreement between the Tribal Government and the State of Montana. The State of Montana and the Confederated Salish and Kootenai Tribes have entered into a cooperative management agreement on the Flathead Indian Reservation. Please check for upland game bird regulations specific to the Flathead Reservation. For information call the Kalispell FWP office at 406-752-5501 or the Tribes in Pablo at 406-883-2888 ext. 7200.

Exception: State upland game bird regulations apply to deeded “fee” land within the exterior boundary of the Crow Indian Reservation.

Kill Site Verification (ARM 12.6.1005) - At the request of a department game warden, it is required to return to the kill site of any game animal, game bird, wolf, or furbearer that has been hunted or trapped.

Regardless of whether the land is posted or not, hunters must have permission from the landowner, lessee, or their agent before hunting on private property. For the purposes of this section, the term “hunt” has the same meaning as provided in **87-6-101** and includes entering private land to: (a) retrieve wildlife; or (b) access public land to hunt.

License Validation and Tagging of Turkeys (MCA 87-6-412)

A person who kills, captures, or possesses a wild turkey by authority of any turkey tag or permit:

- shall validate the tag either electronically in accordance with rules adopted pursuant to 87-2-119 or by cutting out from the license or tag the date the turkey was killed prior to the person leaving or the turkey being removed from the site of the kill;
- shall keep the license or tag accompanying the turkey while the turkey is in the person's possession unless the license or tag was electronically validated; and
- may not validate a turkey license or tag that is restricted to a hunting district other than the hunting district where the turkey was killed.

- While hunting a person may not use a motor-driven vehicle off-road on state land.
- Use a motor-driven vehicle on a road or trail on state land if that road or trail is posted as closed by the land management agency. This restriction applies only to state land and not to federal land. For more information related to state school trust lands, see page 6.

Off Road- Federal lands (CR)

- A person may not operate, on federal public lands, a motorized wheeled vehicle off legal routes (including game retrieval). All federally approved travel plans on public lands in Montana have been adopted by the Fish and Wildlife Commission. Contact the appropriate land management agencies for travel plan information.

Boats (MCA 87-6-207)

- A person may not use a motorboat or a sailboat as defined in 23-2-502 for the purpose of killing, capturing, taking, pursuing, concentrating, driving, or stirring up any upland game bird, migratory bird, game animal, or fur-bearing animal until the motor is shut off or the sails are furled and the progress of the vessel has ceased.

Nontoxic Shot - Hunters are reminded that nontoxic shot is required for the hunting of upland game birds on federal refuges or waterfowl production areas. Only federally-approved nontoxic shot may be used on these areas. Specific questions regarding this regulation should be made through local offices of the U.S. Fish & Wildlife Service.

Public Roadways (MCA 87-6-403) - It is unlawful for anyone to hunt or attempt to hunt any game bird: on, from, or across any public highway or the shoulder, berm, barrow pit, or right-of-way of any public highway (the entire width between the boundary lines of every publicly maintained way when any part thereof is open to the use of the public for purposes of vehicular travel).

valid upland game bird license and nonresident hunters must possess either a valid Upland Game Bird License or a 3-day Shooting Preserve License.

- The following are upland game bird parts “suitable for food:”
 - all birds that fall into the size category of the partridge or smaller, only the breasts must be retained;
 - all birds larger than a partridge and up to the size category of, and including, pheasants and sage grouse, the breasts and the thighs must be retained;
