In the event of mortality resulting from such accidental capture, the carcass of such wildlife shall be delivered to a Division wildlife officer or office within five (5) days. - d. Fall season

3. Preference systems

- a. Preference Points: Preference will be given for correct applications for first choice hunt codes only and shall be subject to the following provisions:
 1. Until January 1, 2028, one preference point will be awarded to each person who qualifies for and fails to draw a limited license as a first choice in the drawing or who applies using a first choice hunt code established for the purpose of accumulating a preference point only. However, no applicant may accumulate more than two turkey preference points per calendar year.

Beginning January 1, 2028, one preference point will be awarded to each person who qualifies for and fails to draw a limited license as a first choice in the drawing or who applies for a preference point only (no hunt codes). However, no applicant may accumulate more than two turkey preference points per calendar year. Residents unsuccessful in drawing a first choice license or those applying for a preference point only (no hunt codes) will be assessed a \$X preference

point fee to receive a preference point. Nonresidents unsuccessful in drawing a first choice license or those applying for a preference point only (no hunt codes) will be assessed a \$Y preference point fee to receive a preference point. If the applicant chooses not to pay the preference point fee, the applicant will not receive a preference point for that application. If an applicant accepts a first choice license that has been returned and reissued all accumulated preference points for that species become void. No preference points are required for purchasing a returned license placed on the leftover list.

Youth as defined by 33-4-117 C.R.S., lifetime license holders, and Colorado resident military personnel on active duty outside Colorado are exempt from these preference point fees.

2. Preference points will be used in future drawings for the same species and will continue to accumulate until the applicant draws a license as a first choice. If an applicant both fails to apply for a turkey license and has not purchased a turkey license during any given 10-year period, all accumulated preference points for turkey become void.
3. Until January 1, 2028, applications with higher preference points will be given priority over all applications with fewer points.

Beginning January 1, 2028, a split draw will be used for both the spring and fall season draws where the quota for each hunt code will be divided, with half of the quota going to a preference point draw, and half going to a bonus draw. If the quota can't be evenly split, the extra license will go to the preference point draw. If there is only a single license available, it will be issued through the preference point draw. In the preference point split half of the draw applications with higher preference points will be given priority over all applications with fewer points. In the bonus draw, for every species preference point an applicant holds, the applicant will have one application entered into the bonus drawing, plus one. Each drawing shall be run processing all first choice applications for the preference point draw first, followed by all first choice applications for the bonus draw before moving to second choice applications. The drawing will continue in that order, until all choices are processed.

4. Until January 1, 2028, group applications will receive preference at the level of the group member with the fewest accumulated points.

Beginning January 1, 2028, in the preference point half of the draw, group applications will receive preference at the level of the group member with the fewest accumulated preference points, and, where applicable, the fewest accumulated chances, except that group applications will not be successful, regardless of preference point level or number of chances, when there are fewer licenses remaining in the hunt code quota than the number of applicants in the group.

5. Unsuccessful and successful applicants in the drawing can check their current accumulated preference point totals online.
- b. Hunting Licenses for Hunters with Mobility Impairments - The Director may make licenses valid in certain GMU's available to qualified hunters with mobility impairments.

Evidence of an impossibility to participate in the hunt without the assistance of an attendant may include, but is not limited to, prescribed use of a wheel chair; shoulder or arm crutches; walker; two canes; or other prescribed medical devices or equipment.

2. #322.5 – Ranching for Wildlife – Turkey

A. Implementation Authority

1. The Director is authorized to implement the Ranching for Wildlife program, including the authority to determine ranch enrollment status, enter into cooperative agreements with ranches, establish and modify public and private season dates on each ranch, and establish and modify license allocations to each ranch including the subsequent distribution of licenses to the public and private share annually, and may establish additional Ranching for Wildlife operating guidelines subject to the following provisions.

B. Ranch Entry and Maintenance

1. Ranches must have a minimum of 10,000 acres of privately owned land in one contiguous unit. Ranches that meet this 10,000-acre minimum requirement may include privately owned non-contiguous parcels in the program if the Director determines that their inclusion will contribute to meeting the performance standards for the ranch.
2. Ranches must develop a Ranching for Wildlife Management Plan that includes goals, objectives, and strategies for achieving such goals and objectives for wildlife habitat management, species management, and public hunting management. The Management Plan must be approved by the Division prior to execution of a Cooperative Agreement for Ranching for Wildlife.
3. Ranches may not charge public hunters an access fee for hunting.
4. Except as agreed to in writing by the Division when necessary to meet the ranch performance standards or as mutually agreed and contained in the Management Plan, ranches must provide for equality of access in terms of geographical area and mode of transportation for both public and private hunters. No closure or restriction of land or roads shall apply to public hunters that do not also apply to private hunters.
5. Public hunts must be established at a time when the species to be hunted are present and available for harvest. No public seasons shall be established during times when normal winter conditions would prevent access to most of the ranch, nor when normal migration patterns of the species to be hunted result in the species having migrated off the ranch.
6. Ranches that establish coinciding or overlapping public and private hunts may not exclude public hunters from any portion of the ranch due to the presence of private hunters.
7. The ranch and the Division will mutually agree to ranch rules regarding access to and hunting on the ranch by public hunters. The ranch rules will be provided to hunters prior to seasons on the ranch in accordance with other provisions contained in this regulation.

C. Cooperative Agreements, Enrollment, Denial of Enrollment, Termination of Enrollment

1. The Division is authorized to enter into Cooperative Agreements with ranches.
2. Ranches may appeal enrollment decisions to the Parks and Wildlife Commission.
3. Cooperative Agreements shall incorporate approved Ranching for Wildlife Management Plans as part of the Cooperative Agreement.
4. The Division shall periodically evaluate ranches for enrollment and contract performance, and shall establish minimum performance standards for ranches enrolled in the program, including wildlife habitat management and improvement, public recreation opportunity and experience, and any factors intended to contribute to meeting turkey management

objectives. Such performance standards shall be incorporated into the Cooperative Agreement with the ranch.

 - a. Private seasons may not begin before April 1, nor extend beyond June 1.
 - b. Public seasons may only be established within the opening and closing dates of the regularly established spring season.

2. Public and private fall season opening and closing date parameters.

2. The public shall receive a minimum of forty percent (40%) of the total number of licenses allocated for each turkey season on each ranch.
3. License allocation for each ranch shall be approved by the Division and recommended to the Director, based upon harvest objectives for the ranch jointly determined by the Division and the ranch, hunter crowding, enhancement of hunter harvest, and relative densities of the species on the ranch.
4. Substitution of licenses of one species or sex for licenses of another species or sex shall not be permitted.
5. Landowner preference shall not be used for any public or private Ranching for Wildlife license.

G. License Distribution

1. Applications

- a. Applications for private hunter licenses stamped with the ranch name and season dates shall be available to the landowner for distribution.
- b. Public hunter licenses shall be available through application and selection from the Division during the annual limited license drawing process, except as provided in this regulation.

H. Special Restrictions

1. Unless otherwise provided in these Ranching for Wildlife regulations all hunters must comply with other applicable regulations, including, but not limited to, manner of take (except that private hunters may use any legal weapon during private seasons), hunting hours, application requirements and deadlines, bag limits, season participation, mandatory checks, OHV restrictions, and other generally applicable regulations for big game hunting.
2. A copy of the mutually agreed upon ranch rules will be provided to all public hunters prior to their hunting season. All public hunters will be required to sign a statement acknowledging that they have read, understand, and agree to comply with all ranch rules, before the hunter is allowed access to the ranch.
 - a. Compliance with ranch rules is a specific condition of the Ranching for Wildlife public licenses and subsequent access to the ranch. In addition to criminal penalties, non-compliance with ranch rules constitutes grounds for suspension and revocation of the license and/or being prohibited from further participation in hunting on the ranch, and/or in the Ranching for Wildlife program as a public hunter.
 - b. Final determination on any legal action taken towards hunters found in non-compliance with ranch rules shall be made solely by officers of the Division. This includes any citation that may be issued for non-compliance with the provisions of a license, or directing a hunter to leave a ranch. Ranch personnel may not direct a hunter to leave a ranch without specific authorization of a Division officer.
